

Powerful Partnerships: Variety, the Children's Charity

With a mission to empower children with disabilities to live life to the fullest, Variety the Children's Charity provides life-changing mobility and communication equipment to ensure our most vulnerable kids are no longer left out, behind, or excluded. Specifically, Variety provides eligible children with life-changing adaptive equipment that's individually made and tailored to meet the needs of each child. Equipment is currently provided through the My Bike®, My Stroller®, and My Voice® programs.

For more information on each program and to submit an application, visit <https://www.variety.pittsburgh.org/applynow>

Building Bright Futures: Greene County CTC

Coal mining company Iron Senergy recently donated a 16,000-square-foot building to GCCTC. The once vacant space and surrounding 47-acres in Franklin Township is already housing the Practical Nursing program, with plans for the LPN program to move in soon. This will allow for the expansion of the cosmetology and welding classes at the original building. Plans for the new space include introducing heavy equipment operations and commercial driver's license courses. The already existing, hugely successful courses housed at the Zimmerman Drive location, paired with the new and exciting opportunities that arise with a new space, undeniably put the Greene County CTC at the forefront of vocational school growth and expansion.

 **Registration Opens on Monday, June 5th**
and closes on Friday, June 16th 

Summer courses begin on June 19th and end on July 28th

Please be aware that some jobs remain posted year-round in order to gather current applications for frequent-turnover positions. Open positions include ESL teachers, special education teachers, social workers, psychologists, paraprofessionals and more!

School Spotlight: Carmichaels Area School District

Carmichaels Area School District has three pillars that guide their approach to education: resiliency, experiences, and careers. The school aims to prepare students for success after graduation by offering a variety of courses and programs that cater to their unique interests and hobbies. The school's course list is inventive and resourceful, with options like "The History of Disease" for a Social Studies credit and "Applied Artificial Intelligence" for a Technology credit. The school also offers state-of-the-art technology, including an Esports arena and a flight simulator. The STEM Club runs a student-led business selling items like T-shirts and jewelry, and the school offers courses in broadcasting, video production, marketing, and communication for those interested in media careers. The school also offers EMS Field Training and trips to Allegheny General Hospital for students interested in healthcare careers. Overall, Carmichaels Area School District prioritizes sparking inspiration, encouraging innovation, and providing real-world experiences to prepare students for success after graduation.

Esports Spring Classic

The Waynesburg University Esports Rocket League Spring Classic in collaboration with IU1 was held on May 30th at Waynesburg University. Six school districts including Albert Gallatin, California, Canon-McMillan, Carmichaels, Jefferson-Morgan, and Laurel Highlands participated in the double elimination tournament. The final match pinned California against Canon Mac, with California emerging victorious. The event was shoutcasted by high school students for the first time ever, impressively done by Carmichaels. Lunch was graciously provided by The Esports Company. Congrats to all teams on a great tournament!

ENTREPRENEURSHIP AND STEM SUMMER ACADEMY

PRESENTED BY ENTREED AND INTERMEDIATE UNIT 1

Dates: June 20-23, 2023

9 am to 2 pm with breaks for snacks and lunch

What you will do:

Learn skills to think like an entrepreneur.

Experience entrepreneurship in a variety of STEM fields such as artificial intelligence, agriculture, innovative products, the arts and videography, technology, and more.

Develop your own entrepreneurial ideas in different fields.

Each day will bring a new and exciting entrepreneurial adventure!

From the Desk of Dr. Don Martin

Hello, and welcome to our very first edition of the "IU1 Insider." The purpose of this publication is to provide all stakeholders of IU1 with the most updated information about our organization. I am extremely proud of all that contributed to making this initiative become possible.

Since this is our "end of the year" edition, I find it most fitting to highlight our various summer programs. While many are enjoying the summer vacation, our programs continue throughout the summer months. Among these is our traditional "Camp Tech" interactive camp. This program has been around IU1 for quite some time and is run in all three of our counties. Enrollment fills quickly as students in grades 3-8 learn innovation, entrepreneurship, as well as other vital skills through interactive activities.

While IU1 works with several partners on behalf of our districts, our newest relationship with Imagine Learning has to be one of the most exciting. Added to our Fusion Cyber Solution options, districts can now purchase courses through Imagine Learning at consortium prices. We offer summer school, Advanced-Placement courses, various language courses and more! This program has grown significantly just over the past two months!

Speaking of our districts, we are so proud to be a partner of 25 fantastic school districts, five Career-Technical Schools, as well as our various non-public entities and parochial schools. I hope everyone had a great end of the school year and is looking for some well-deserved time off! While this can be some "down" time for schools, it is one of our busiest times of the year at IU1 as we prepare trainings and workshops for opening in-service programs. We also do quite a bit of planning as we host our three center-based (or campus) schools representing all of our three counties.

Finally, if you (or someone you know) are looking for employment in the education field, we'd certainly like to meet you! Please see our advertisement included with this edition.

Thanks again for all of the support, collaboration, and partnerships with IU1. I hope you all have a GREAT summer! We are already looking forward to the 2023-2024 school year!

Regards, Don
