

The new Chapter 14 regulations require districts to list criteria for developmental delay in their child find. Can you send me a statement that would suffice for some criteria for developmental delay that I can share with the districts?

A Developmental Delay is determined by the results of a developmental evaluation. The results of one or more domain areas (Adaptive, Personal-Social, Communication, Motor or Cognitive) have to show at least a 25% delay or a score of 1.5 standard deviations below the mean (Standard Score of 77 or below). The delay results in the need for specially designed intervention/instruction (SDI) in order to participate in typical activities and routines.
